 **ACTION ALERT**
- Protect Fair Payment on Public Works -
Support SB 33 (Cortese) 

[SB 33](#) preserves the fair public works change order and claims process that contractors rely on to be paid for work already performed. Without it, the law sunsets in 2027, risking a return to delays, disputes, and costly litigation.

For nearly 10 years, this process has:

- ✓ Helped contractors get paid for extra work
- ✓ Reduced project delays
- ✓ Prevented disputes from turning into lawsuits

If SB 33 doesn't pass, those protections go away.
